

INTERREG BSR 2014-2020 PROJECT TEST-4-SME

WORKSHOP FOR SME STAFF

AGENDA

Date/Time	31 July 2020, 9.30h-12.30h
Venue	Applied Research Institute for Prospective Technologies, Vismaliuku street 34, LT-10243 Vilnius, Lithuania
Host	Algirdas Galdikas, Applied Research Institute for Prospective Technologies Vitas Mačiulis, Lithuanian Solar Energy Association
Moderation	Algirdas Galdikas, Applied Research Institute for Prospective Technologies Vitas Mačiulis, Lithuanian Solar Energy Association
Scope	Solar power plants: testing, documentation, equipment, new possibilities

Time	Topic	Responsible¹
09.30	Registration & coffee	
10.00	Welcome	Algirdas Galdikas, PROTECH Vitas Mačiulis, LSEA
10.10	Solar power plant installation documentation	Andrius Karazinas, ST
10.40	Efficiency measurements and testing possibilities of solar plants and photovoltaic modules	Darius Nislaitis, PROTECH
11.00	New voltage converters (inverters) and generation optimizers for solar power plants in the Lithuanian market	Vytautas Vaičiulis, E
11.30	Modernization of an apartment house to the full supply of renewable energy: possibilities and models of solar and heat pump systems, testing and control measurements	Vitas Mačiulis, LSEA
12.00-12.30	Q&A session, discussion & sharing experience	

¹ Abbreviations: PROTECH = Applied Research Institute for Prospective Technologies, LSEA = Lithuanian Solar Energy Association, ST = UAB "Solet Technics", E = UAB "Ekoenergas"
